The Law.

The members of the sub-departments are expected to become familiar with "An act concerning the incorporation and government of cities having more than one hundred thousand population, according to the United States census last pre eding, and matters connected therewith, and declaring an emergency," approved March 6, 1891, to the end that their best efforts may be enlisted to insure its successful operation. Its purpose is to banish politics entirely from all connection with the execution of the laws. Members of the departments are strictly forbidden, whether on or off duty, to take any part, directly or indirectly, in any convention, primary or election, or other political gathering, or to become interested in any candidate or political measure.

The following is a full text of that part of the above act directly applicable to the Department of Public Safety :

SEC. 93. The Department of Public Safety shall be under the charge of a Board of three Commissioners, to be appointed by the Mayor of such city as hereinbefore provided. No more than two of said Commissioners shall be of the same political party. Said Commissioners shall give bond to such city, to be approved by and filed with the Department of Finance, for the faithful performance of their duties respectively, as required by ordinance. Said Board shall have the care, management and supervision and exclusive control of all matters relating to the Fire and Police Forces, fire alarm telegraph, erection of fire escapes, inspection of buildings and boilers, market places, and food sold therein, pounds and prisons. Said Board shall have power to purchase all necessary supplies, and apparatus, and make all repairs needed in its department, subject to the same provisions as are herein prescribed for the exercise of similar powers by the Department of Public Works. Said Commissioners shall receive annual salaries of \$600 each.

SEC. 94. Said Commissioners shall adopt rules for the appointment of members of said Fire and Police Forces, their regulation and duties, subject, however, to the laws of the State and to the ordinances of the Common Council. Any two of said Commissioners shall constitute a quorum. Said Commissioners shall adopt rules and regulations with regard to the time of holding regular and called meetings and of giving notice thereof. They shall elect one of their number as Chairman, who shall hold such position as long as may be prescribed by the rules of said Board. Said Commissioners shall cause all of their proceedings to be carefully recorded by a competent Clerk, who shall give

bond for the faithful performance of his duties, to be approved by such Board in such sum as may be fixed by ordinance. They shall only act as a Board, and no member thereof shall have power to bind said Board or such city, except pursuant to a resolution of such Board authorizing him to act in that behalf as its authorized agent. Said Commissioners shall have the care and charge of all property of every kind pertaining to the Fire and Police Forces and to the market places, pounds and prisons of such city.

SEC. 95. Said Commissioners shall appoint a Superintendent of Police, Chief of the Fire Force and all other officers, members and employes of said Fire and Police Forces, together with a Market Master, Station-house Keeper and other officials necessary for such Department of Public Safety. The annual pay of such appointees shall be fixed by ordinance of the Common Council, and it shall be lawful in such ordinance to grade the members of such forces and to regulate their pay, not only by rank, but by their length of service. In default of any ordinance fixing the compensation for any member of such Fire or Police Force, said Commissioners shall have power to fix the same, subject to change by ordinance by said Council. Said Commissioners of Public Safety may also fix the number of members of said Fire and Police Forces, and the number of appointees for other purposes. Said Commissioners of Public Safety shall in like manner divide such city into Police Precincts and Fire Districts. Said Commissioners shall also have power to make and promulgate rules and regulations for the appointment of members to such forces and for their government: *Provided*, That said forces shall be as nearly as possible equally divided politically, and no member thereof shall be dismissed except for cause as heretofore provided. The Superintendent of Police shall have exclusive direction and control of the Police Force, and the Chief of the Fire Force shall have exclusive control and charge of such Fire Force, subject to the rules, regulations and orders of said department of Public Safety. In times of peril, danger, riot, extensive conflagration, disorder, or the apprehension thereof, said Chief of the Fire Force and the Superintendent of the Police Force shall, for the time being, be subordinate to the Mayor and obey his orders and directions, anything to the contrary in this act or in the ordinances of such city, or in the regulations or orders of such Commissioners of Public Safety, to the contrary notwithstanding.

SEC. 96. Each member of the Fire and Police Force and all other appointees of the Commissioners of Public Safety shall hold office until they are removed by the Board. They may be removed for any cause other than politics, and the written reasons for such removal shall be entered upon the records of such Board.

Misdemeanors are crimes of a lesser grade, where the penalty is generally a fine or commitment to the Work-house, Jail, or Station-house, such as assault and battery, drunkenness, disturbance of the peace, etc.

A felony is a high grade of crime, and the good order of society demands that its commission shall be rendered next to impossible, or, if committed, or attempted, that the vigilance of the law shall be swift and unerring against the offender.

Any officer may arrest forthwith, without warrant, any one committing a misdemeanor or offense against a State law or city ordinance in his presence; but, if the offense was not committed in his view, he should first procure a warrant.

If any officer knows that a warrant has been issued for the arrest of a party, and has not been withdrawn, it is his duty to arrest that party wherever he meets him, although he may not have the warrant in his possession.

All persons are bound to submit peacefully to legal arrest; therefore it is the duty of an officer to compel all persons, in case of resistance, to submit to arrest. Officers are enjoined, in making arrests, to act with kindness, to use no more force than is necessary. If a number of persons are collected and the officer can safely take the person aside and communicate his purpose, and make the arrest without undue publicity, he must do so.

Members of the Legislature, in all cases except treason, felony and breach of the peace, shall be privileged from arrest during the session of the General Assembly, and in going to and returning from the same. They can not be arrested for gambling, drunkenness or frequenting houses of ill-fame during the session, but they may be indicted at any time and the arrest made afterward.

Offenses such as non-payment of licenses, neglect to take out licenses, uncleanly premises, and all that class of acts which consists in neglect to do something prescribed by law, and not in active violent opposition to law, ought to be complained of before arrest.

Officers are strictly enjoined not to make an arrest a personal, but an official matter. They should pay no attention to coarse or vulgar language, or abuse, which may be directed toward them, and should avoid all language or conduct that would provoke resistance.

DUTY AT FIRES.

Must Note Conditions.

Rule 81. The police officers who arrive first at a fire must be particular to notice the exact location of the fire, and must examine minutely to ascertain if there is any appearance of the house, store or outhouse having been set on fire by design. They must note on their memorandum

THE PUBLIC HEALTH.

Must Preserve Public Health.

Rule 89. The Indianapolis Police, in connection with the Sanitary and Health Officers, are chargeable with the duty of preserving the public health and securing cleanliness throughout the city. They will have a watchful care to promote order, neatness and uniform observance of all health regulations in their respective precincts. They are instructed to warn all offenders to abate nuisances created by them or existing on or appurtenant to the premises occupied by them, and to complain against all who neglect to attend to such warning. They must not permit filth or garbage or anything deleterious to the public health to be thrown into the streets or alleys, or to remain there, or to exist on any premises in their precincts, and they are directed to report all violations of the Health Ordinances at

once to the Superintendent, as well as any other matters needful of attention to secure cleanliness, prevent contagious diseases, and advance the public health.

THE DETECTIVE FORCE.

General Rules Apply.

Rule 90. The general rules of the Indianapolis Police Force, regulating the conduct of its members, shall apply to the members of the Detective Force.

Shall be Under Charge of Chief.

Rule 91. The persons appointed as Detectives on the Police Force shall be under the immediate charge of the Chief of Detectives, and shall perform such duties, keep such records, and make such reports as the Chief of Detectives may prescribe, under the Direction of the Superintendent of Police. The Chief of Detectives and those employed under him shall be appointed by the Board.

Subject to Call at Any Time.

Rule 93. Detectives will be subject to call for duty at all times at the order of the Chief of Detectives or Superintendent of Police.

Records.

Rule 94. Each Detective shall keep a book in which it shall be his duty to carefully note all matters that may be of value to the force, viz.: the presence in the city of known thieves or suspicious characters and their location—any arrests he may have made, together with the names of witnesses or others having knowledge of the case—where such Detective spends his time each day, and shall make written report covering such points, the same to be filed with the Chief of Detectives each morning.

Reports.

Rule 95. Detectives shall in all cases report all criminal matters to the Chief, *withholding nothing*, and shall accept such assignment for duty as may be given by that officer.

Chief May Summon Patrolmen.

Rule 98. In case of urgent necessity, the Chief of Detectives may summon any regular patrolman to the assistance of the Detective Force; where this necessitates the calling of a patrolman from his district, the Chief of Detectives will report the matter to the Superintendent of Police, stating the length of time such patrolman was detained and the character of the duty required.

Photographs of Prisoners.

Rule 101. The likenesses of persons collected for the use of the Detective Force shall be privately kept in a gallery for the official use of the Police Force, as an aid to the prevention and detection of crime, and shall not be exhibited to any person unless such person is accompanied by an officer of the Police Force.

POLICE AND FIRE SURGEON.

*** Official Title.**

Rule 1. The Surgeon to the Department of Public Safety shall be appointed by the Commissioners and be known as the "Police Surgeon," but his official duties shall apply to the Fire Force as well as to the Police Force.

Examination of Applicants.

Rule 2. The Surgeon shall examine all applicants when sent to him by the Commissioners. An applicant, when presenting himself for examination, must furnish the Surgeon with a written order from the Clerk, accompanying the regular form of application. The standard of examination shall be perfect health and superior physical development. The patrolmen and substitutes shall be selected between the ages of 24 and 40 years, the Commissioners, however, reserving to themselves the right to make such exceptions in reference to age and other conditions as in their discretion may be necessary in the interest of public service. The minimum stature shall be fixed at 5 feet 9 inches, and the minimum weight in proportion. All who fall below the standard shall be rejected, and in case of doubt such doubt shall be settled in favor of the department. A written report of the result of the examination shall be made forthwith to the Commissioners. No candidate who has been rejected shall be again examined within twelve months.

Attendance on Sick Members.

Rule 3. He shall at once be notified when a member of the Police or Fire Forces is sick or injured; shall forthwith visit him, and if he be found unfit for duty shall take charge of him, giving him such care and treatment as his case demands, until restored to health. He shall make a written report to the Superintendent of Police or Chief of the Fire Force, of the circumstances of each case, and when terminated shall at once inform him of the fact. If another physician attends the patient the Surgeon shall visit him in the interest of the department, and a certificate of disability from the Surgeon only shall receive recognition from the Commissioners.

Care of Prisoners and Criminal Injuries.

Rule 4. He shall, upon notification, visit and care for all persons under arrest suffering from illness or injury; no other medical attendance will be permitted, except in the absence of the surgeon; and he shall also, if required, visit and report upon the condition of persons criminally injured or disabled.

Sanitary Inspections.

Rule 5. He shall have sanitary care of all buildings of the Department of Public Safety, and at stated intervals, in company with a member of the Board of Commissioners, make a sanitary inspection of the buildings of the Fire Force, and shall order such health measures as circumstances may make expedient for the welfare of the service, subject to the approval of the Board of Commissioners.

Evasion of Duty.

Rule 8. Any employe of the Department of Public Safety attempting to evade duty by reason of fictitious illness or injury, as well as such as suffer from disability resulting from drunkenness or other fault, shall be so reported to the Superintendent of Police or the Chief of the Fire Force respectively, who shall transmit the same, at once, to the Commissioners.

SUGGESTIONS FOR EMERGENCY TREATMENT IN CASES OF ACCIDENT.

1. Persons suffering from severe illness or injury should not, unless absolutely necessary, be removed. The usual medical attendance should be summoned at once. If under arrest, call the ambulance and notify the Surgeon at the same time. Such cases as are likely to require prolonged treatment should be taken to the Hospital.

2. In cases of poisoning do not move the patient. Summon the usual physician, and while waiting for him give salt and water, or mustard and water, in large quantities, if the patient can swallow. You can not give too much. Morphine poisoning is the only form you are likely to meet. You can tell it by the sleepy stupor and by the contracted pupil. Strong coffee, as soon as vomiting occurs, is to be given freely.

3. In cases of sunstroke, apoplexy or epilepsy, loosen all bands at the throat, waist and wrists; move the patient very carefully if at all; apply cold water to the head; use no restraints, if the patient be convulsive, beyond just enough to keep him from harming himself; give no stimulants nor medicines whatever until his doctor comes.

4. In fainting, cut the patient's corset stays, if a woman; loosen all bands anyway; and, if able to swallow, give ten drops of ammonia with tablespoonful of whisky and another of hot water, every ten minutes. Ammonia without whisky, but with plenty of water, if patient is hysterical.

5. In cases of fractured bones, take a barrel stave, place upon it a pillow, cushion, or wisp of straw; put the limb, as nearly as possible, in a natural position upon this support, and tie, rather firmly, all together, by four bands of muslin; the patient may then comfortably and safely be carried to a distance. Haste, after a fracture, is entirely unnecessary; days may pass before setting a broken bone, and good results follow. Dislocations, however, require the surgeon's attention at once.

6. In cases of hemorrhage, place a finger above and another below the bleeding point; press firmly until the bleeding ceases. The patient may then be carried safely to the Station House, or to his home, and the surgeon summoned. Red blood spurting out in jets means serious bleeding; dark blood trickling out is not so dangerous a symptom. The great blood vessels lie in the bend of the joints—the neck, the arm-pit, the elbow, the wrist, groin, knee, ankle, etc.

7. Watch all persons who are dead drunk, insane or subject of delirium tremens. The Station-House keeper should visit them frequently while under arrest; apoplexy and sudden death are common under these conditions. Many fatal cases of paralysis, of fractured skull, and of choking from food in the throat have been mistaken for drunkenness.

8. In cases of apparent death from drowning, do not roll the patient on a barrel nor hold him up by the heels, nor force tobacco smoke upon him. If still breathing, place him at once in a warm bed, with warm blankets or hot bottles about him, and give him some hot whisky and water. If not breathing, lose no time—treat him on the spot: Loosen all bands; cleanse the mouth and nostrils; wipe the body briskly with hot towels, rubbing the limbs vigorously *toward the body*. Place the patient on his face, with one wrist under the forehead, then turn onto the side and a little beyond, then back to first position. Now press firmly along the spine to squeeze the air out; then repeat movement upon the side, by which air is sucked in. Go through this process fifteen times a minute as long as the heart beats at all, or until breathing is fully restored; then remove to a bed and treat by warmth and stimulants.

9. Kill all mad and infuriated animals at large, or such as have fits in a public place—the excitement, fear and danger to passers-by under such circumstances justifies this. Hydrophobia in animals is oftener known by sullen hiding, red eyes and slobbering mouth, by biting at imaginary objects, straw and litter, than by running at large. When a dog has bitten a person it is best, if possible, to keep him confined long enough to determine if he is rabid

before destroying him. Great anxiety and fear of hydrophobia is sometimes saved to the person bitten if the animal prove not to be hydrophobic.

10. In surgical emergencies do nothing in a hurry; you are not expected to be surgeons, but rather to use cool common sense. Do not charge yourself with medical or surgical cases other than such as concern you as your position demands. Let citizens not under arrest or criminally injured follow their own methods for their own good.

THE SCIENTIST AND WELL-KNOWN

Catarrh, Throat and Lung PHYSICIAN,

Has well established and proved, without
a doubt, that

**Tuberculosis, or Lung Consumption
IS A CURABLE DISEASE.**

The Doctor has cured thousands of pronounced true consumptives, even by family taint or inherited disease, many of them afterward bearing the most rigid examinations for life insurance.

The Doctor has patients visit him from all parts of the United States for treatment, many being cured by his treatment ten to twenty years ago. His consultations are free. Leading physicians unanimously agree that the Lung Renovator, as sold by first-class druggists, has no equal in curing consumption and lung troubles.
